General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown, enter on Line 1 under Column (a) the Catalog program title and the Catalog number in Column (b).

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the Catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the Catalog program title on each line in *Column* (a) and the respective Catalog number on each line in Column (b).

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g)

For *new applications*, leave Column (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For *continuing grant program applications*, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For *supplemental grants and changes* to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5 - Show the totals for all columns used.

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Line 6a-l - Show the totals of Lines 6a to 6h in each column.

Line 6j - Show the amount of indirect cost.

Line 6k - Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

Line 7 - Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Show under the program

Enhancing Accessibility to Elections for Individuals with Disabilities
in the State of Hawaii

Background

The voting process in Hawaii is a unique experience, due to our geography of island counties and the need for a coordinated effort between State and County election officials. Hawaii is the only state in the nation with counties separated by an ocean. The counties also vary, with variations in the number of islands included in the county and the size of individual islands. The State Office of Elections is based on Oahu (City and County of Honolulu), and coordinates election efforts with County officials on election days. A major portion of Hawaii (Big Island), Maui, and Kauai counties is rural with limited options for existing accessible polling places. Currently, all of the polling places offer curbside voting to provide program accessibility to voters with disabilities. This option is not always the most expedient or preferred choice for voters.

The four program objectives are to: 1) enhance polling places by ensuring that the path of travel, entrances, exits, and voting areas of each polling facility are accessible to individuals with the full range of disabilities; 2) provide the same opportunity for access and participation to include privacy and independence to individuals with the full range of disabilities; 3) train election officials, poll workers, and election volunteers on how best to promote the access and participation of individuals with the full range of disabilities in elections for Federal office; and 4) provide individuals with the full range of disabilities with information about the accessibility of polling places.

Administration of the Project and Grant

The State Office of Elections and the Disability and Communication Access Board (DCAB) are working collaboratively on this grant to improve accessibility to elections for individuals with disabilities in the State of Hawaii.

The State Office of Elections is applying for the grant and will be the recipient of this federal allocation. The DCAB, a state agency administratively attached to the Department of Health, will be an integral partner and will, under a Memorandum of Understanding, implement the program. The program will be administered out of the DCAB office. Fiscal oversight will

remain with the State Office of Elections. At the conclusion of the grant, the program will revert to be an integral part of the Voter Education Program of the State Office of Elections.

There are no personnel or fringe benefit costs included with this grant because the State Office of Elections will be providing a staff position to work on this project. The position will be paid for from a separate funding source with the State Office of Elections. Therefore, all of the funds received through this grant will be used to satisfy program objectives. The project staff has not yet been hired. The project will give priority to finding a qualified person with a disability, acknowledging that the most impact will be generated by a trainer with a disability when interacting with polling and precinct officials, most of whom do not have disabilities.

It is anticipated that the project staff will implement all objectives noted below with the exception of providing direct training for disability groups in workshops (Objective #3). The project proposes to use either persons with disabilities or disability-related agencies as the vehicle for outreach with a similar rationale as noted above. The State Office of Elections and the DCAB believe that peer-to-peer training will be the most effective in the workshops.

Project Objectives

In order to improve accessibility of the election process to individuals with disabilities, the project will:

- 1) *Ensure that all polling places in the State of Hawaii are accessible to persons with disabilities.*

There are approximately 351 polling places (voting sites) statewide with 339 (97%) identified as accessible in the 2002 elections. The majority of the polling places are located in public schools or State/county facilities. Those sites meet minimum requirements for physical accessibility. One hundred percent (100%) of the polling places for the 2004 elections will be accessible to persons with disabilities.

The three percent (3%) of polling sites (equivalent to twelve (12) sites) that are not physically accessible are usually due to the presence of curbs or steps into the building. These sites are primarily located in rural areas on the neighbor islands. The project plans to purchase portable ramps to make the path of travel and entrances accessible to people with mobility impairments. There may be a few sites where it is infeasible to use portable ramps. For example, in Upcountry Maui there are some privately owned (churches and garages) sites used as polling places. In those situations, the project staff will work with the State Office of Elections to locate an accessible State or county building (or other alternative) and relocate the polling site to ensure minimal accessibility requirements are satisfied.

In addition, some sites have alternate entrances that, while accessible, are not primary entrances. Therefore, directional signage will be purchased and provided by the project to ensure that persons who arrive on site receive clear directions to the accessible entrance of every polling place. Some sites may not have clearly marked designated parking for persons with disabilities. For those sites, the project plans to purchase portable signs to designate temporary polling place parking for persons with disabilities for use on election days.

- 2) *Provide statewide training to voters with the full range of disabilities, utilizing trainers with disabilities, to embrace privacy and independence in the voting process.*

The project will contract with five (5) individuals with disabilities and/or agencies to conduct workshops with various disability groups to train them on the voting process. The five (5) targeted disability groups are: a) persons with developmental disabilities, b) persons who are blind or visually impaired, c) persons who are deaf or hard of hearing, d) persons with mental illness, and e) persons with mobility impairments.

Individuals or agencies will be hired to conduct workshops statewide. The workshop topics will include, but not be limited to: a) the elections process; b) voting options for persons with disabilities (i.e., curbside voting, absentee voting, equipment use); c) methods for voters with various disabilities to seek assistance in the voting process; and d) requests for auxiliary aids and services.

The workshop topics will provide choice to voters with disabilities and allow the voter to make informed decisions about how they will participate in the election process. This may also include choosing to work as a precinct official. Each person or agency is expected to conduct approximately five (5) meetings or workshops statewide and reach one hundred (100) persons each. The individuals or agencies contracted will have input to the training curricula developed through a collaborative working relationship with the project staff.

- 3) *Develop and implement training curricula and educational materials for election officials, precinct officials, and election volunteers.*

The project staff will develop educational materials and training curricula to instruct officials and volunteers about how to work with voters with disabilities, voter rights, and how to provide good customer services during elections. Services will cover both absentee voting, voting at a polling place, and improving the curbside voting process. Workshops will be conducted for State Election Officials, County Clerks' staff, and election volunteers by the project staff of DCAB. In addition, workshops will be conducted for precinct officials statewide in conjunction with the State Office of Elections from June through July 2004. The materials and curricula developed will become an integral part of the ongoing Voter Education Program of the State Office of Elections at the conclusion of the project.

- 4) *Provide individuals with the full range of disabilities with information about the accessibility of polling places.*

The project will also ensure that voters with disabilities are aware of accessibility features of polling places prior to the September 18, 2004 Primary Election. It is anticipated that this objective will be more of a mass outreach, rather than an individualized, detailed workshop as described in Objective #2. However, this objective will mesh closely with the workshops for voters with disabilities in Objective #2, as the target audience of persons with disabilities will be hearing the same message.

This objective will be implemented through community workshops, and media outreach (newspaper, television, web sites, and local disability newsletters). Information dissemination of all brochures and fact sheets developed relating to the voting process (20,000 copies) will be provided to individuals with disabilities and liberally distributed statewide. The State Office of Elections conducts an aggressive voter education and registration outreach effort each year through booths at malls, shopping centers, and other community events. A brochure relating to voting for persons with disabilities will be part of this outreach effort. The brochure will be translated into other languages by the State Office of Elections consistent with their policy for other publications. The brochure will be made in alternate format (e.g., Braille, large print, etc.) as part of this project. Articles informing people with disabilities of their voting rights and responsibilities will be placed in twenty (20) newsletters of disability organizations in the State of Hawaii. The DCAB will include the information contained in the brochure on its state web site. An educational media outreach campaign will be developed to include television spots and interviews to be aired statewide.

Project Outcomes

Measurable outcomes of the activities from this grant, will be:

1. Five hundred (500) persons with disabilities statewide will attend voter education workshops to understand their voter rights and accessibility in the voting process.
2. Ninety percent (90%) of the workshop participants will indicate that they will be voting in the Hawaii Primary Election on September 18, 2004.
3. There will be five (5) new precinct officials with disabilities working in the Hawaii General Election on November 2, 2004.
4. All polling places will be accessible to persons with a full range of disabilities who wish to vote in their own precincts.

5. Each State or County Control Center will have at least one (1) designated “accessibility manager/troubleshooter” assigned to address and resolve accessibility issues that may be raised by voters with disabilities on election days.

The State Office of Elections and the Disability and Communication Access Board seek full inclusion of individuals with disabilities into society, and the right of such persons to be treated as equals among all people. Full inclusion involves all facets of an individual’s life. Voting is a basic right and responsibility of a democratic society. It is anticipated that through the activities of this grant, the voting process will be accessible to and equitable for registered voters with disabilities.

CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201. Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies.
4. For grantees who are individuals, Alternate II applies.
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Alternate I. (Grantees Other Than Individuals)

The grantee certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an ongoing drug-free awareness program to inform employees about --

(1) The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will --

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted --

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

(B) The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

Check if there are workplaces on file that are not identified here.

Alternate II. (Grantees Who Are Individuals)

(a) The grantee certifies that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant;

(b) If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, he or she will report the conviction, in writing, within 10 calendar days of the conviction, to every grant officer or other designee, unless the Federal agency designates a central point for the receipt of such notices. When notice is made to such a central point, it shall include the identification number(s) of each affected grant.
